SUMMARY

Multidisciplinary UI designer and Webflow developer with 10+ years of experience across print, motion, marketing and product design. I bridge the gap between clear design, smooth interactions and easy-to-maintain Webflow builds – always with a calm, structured and empathetic approach.

EXPERIENCE

Freelance UI Designer & Webflow Developer

Aga Gu • Remote • 2022 - Present

- Design and build Webflow websites for small businesses and personal brands
- Guide clients through a structured, calm process focused on clarity and autonomy
- Create interactions and micro-animations that elevate the user experience

UI Designer

visionpeople.agency • Poland, Poznań, Remote • 2022 - 2024

- Designed dashboards, web experiences and landing pages in fast-paced sprints
- Collaborated with developers and product teams on UX flows and components
- Integrated motion into UI work, creating microinteractions and subtle animations that enhanced the user experience.

Motion Designer & Creative Designer

HBH sp.z o.o. • Poland, Poznań, remote • 2019 – 2022

- Created marketing visuals, animations and social media content
- Designed key visuals, brand elements and campaign assets
- Strengthened cross-team collaboration and creative problem-solving

EDUCATION

Bachelor's Degree in English Philology

PWSZ in Konin, Poland • 2011 - 2014

transitioned into design through courses, self-study and professional practice
